

Magic Melt

with

Q.actin

Melt away. Move forward.

THE SCIENCE BEHIND THE CONCEPT

Fruity berry-flavoured lozenges melt on the tongue and release Q-Actin™, a natural cucumber fruit extract that **supports joint function and mobility**.

This innovative concept redefines joint health with a modern, sensory and differentiated approach, combining vitamins, manganese and cucumber extract as an alternative to traditional glucosamine and collagen-based products.

Why **Q**.actin

Supports joint health with a **100% natural, plant-based ingredient** derived from select *Cucumis sativus* L. cucumbers, helping to strengthen joints, reduce discomfort, and improve flexibility and function

Delivers **clinically proven efficacy**, showing superior results compared to glucosamine-chondroitin in reducing joint pain and improving mobility and daily physical performance

Enables **highly efficient formulations** with a low daily dose (10 mg twice daily or 20 mg once daily), offering strong flexibility for product development

Suitable **for a wide range of applications** including joint health, healthy aging, weight management, and sports nutrition and performance

A **patented, GRAS-affirmed ingredient** designed to power innovative, science-backed nutraceutical products

THE ADVANTAGES

- Cucumber fruit extract Q-Actin™
- Vitamins and manganese for joint health and flexibility
- Sensory differentiation, unconventional dosage form
- Vegan, gluten-free, lactose-free

Backed by EFSA-approved Health Claims (Regulation (EC) No 1924/2006):

- Vitamin C contributes to normal collagen formation for the normal function of cartilage.
- Manganese contributes to normal formation of connective tissue.
- Vitamin D contributes to the maintenance of normal bones and muscle function.
